## LESSON No. 9

## PART I

## THE SIXTH RAY

The Sixth Ray represents the activities of Devotion, Ministration, Healing and Peace. The Ascended Master Jesus was Chohan of this Ray until His elevation to the Office of World Teacher. The Ascended Lady Nada then offered Her service for the Office of the Chohan of the Sixth Ray; She held this position until John, The Beloved succeeded Her in this Office.

Lady Nada made Her Ascension seven hundred years before Master Jesus, and She has built a tremendous momentum in the use of the Pink Flame of Divine Love. She is also a Messenger for the God and Goddess Meru and Their Temple of Illumination located over Lake Titicaca in Peru, South America.

Many Holy Orders of the Christian Dispensation over the past two thousand years have received great assistance from Her momentum of service on the Sixth Ray.

## THE RUBY TEMPLE OF HEALING

The great Ruby Temple is located within the SIXTH SPHERE, and from it the great Healing Currents have poured forth since the creation of the planet. It radiates a soft Pink Flame which contains the essence of that Peace which

surpasses the understanding of the human mind as It flows Earthward into the auras, minds and hearts of all people. The Angels of Healing Who serve in this Temple are robed in the varying shades of pink - from the white blush pink to the deepest and most glorious tones of rose.

The Ruby Temple was built by the great Builders of Form together with the Elohim Cassiopeia to hold within itself the momentum of the aspirations, prayers and hopes of mankind. Here, through Divine Alchemy, the petitions and prayers of the people are answered. The Angels gather the prayer force and draw it upward since usually there is not enough pressure from the hearts of the people to carry such prayers out of the atmosphere of the supplicant. As part of Her great Service to Life, Mary, the Mother of Jesus, serves in this Temple, as does the Lady Master Nada.

By human standards, this Temple is colossal, and looks like a great pink pearl with its domed central hall where the Flame Altar is located, and where the entire interior is suffused with a delicate pink light. The Altar is separated from the Great Cathedral by a soft golden mesh curtain through which the Pink Flame is easily distinguishable. The fragrance of this Flame is like roses, and you can imagine Its size and concentrated power when you realize that It has been in existence ever since the first member of the human race took embodiment. Here you may see Mary, Nada, or any one of the great Ascended Masters engaged in receiving the upreaching prayers from the Angels Who are constantly sweeping through the Temple carrying that soft pink ephemeral substance. Then, at regular intervals, the Rays are directed Earthward, and the Temple shines like a Pink Sun and the Rays pour forth until the atmosphere looks like a lovely dawn. This outpouring goes forth on the Cosmic Tones that are held within that beautiful song: "End of a Perfect Day."

At the time of the descent of the First Manu and Lord Michael with the Holy Innocents, as all knelt in prayer, a soft pink cloud of energy carrying the sweet pure praises of the Innocents rose toward Heaven and was drawn into the Sixth Sphere. Here it became the nucleus of the Flame of Love and Peace around which the Ruby Temple was later built. From that time on, beautiful Angelic Beings constantly attended the prayerful hearts and the glorious rituals and ceremonies of the civilizations of Light, and gathered within Their own auras this pink radiation of Love Divine until today the entire mass momentum of aspirations and gratitude to Divinity rises upward in an ever increasing spiral of Pink Flame. This is the substance which Jesus, Mary, Nada, and Others direct in answer to calls for assistance, Healing and Peace, and which the Angelic Host Who belong to that Temple take and wind around the inner bodies of those who know how to call for its essence.

#### DISCOURSE: ASCENDED LADY NADA

"I come to bring to you the radiance of Pure Divine Love - that Love which does envelop the feeling nature, does enter the mind, does melt away the etheric bitterness, and does even give solace to the flesh structure. For many, many ages, I have been trained along the line of developing the potential good within life, and have worked, long before my Ascension, under Beloved Charity (Twin Flame of Archangel Chamuel) endeavoring to overcome those personal feelings of the outer self that desire to be perfect in themselves but are not always eager to see and encourage that same perfection in others.

"I was one of a group of daughters in the land of Mesopotamia - all of whom were so very talented and could perform so magnificently - receiving much applause and approbation, and I felt within Myself very inadequate until

Beloved Charity helped Me to learn that I could increase My Power of Love by increasing their talents.

“You may think, looking back over those long ages, that it was not so difficult for a small child to spend all of the prayer hour in the Silence pouring out, impersonally, LOVE to My talented sisters - increasing far beyond their own potential worth, those gifts of voice, art, and the dance - and they, developing in that grace, NEVER KNEW that through My own endeavor to be selfless and honest, earnest and sincere in the giving of My Light to their Virtues and Talents, that their gifts increased beyond that which they otherwise would have known. It was then that I really learned that the name ‘Nada’ meant nothing; and to some it is used in this connection today (Spanish). I learned to overcome jealousy which is spawned out of fear and insecurity. Seeing My sisters grow in beauty and grace I was, of course, growing in that selfless capacity to serve wherein I would be utilized by the Cosmic Law to help other lifestreams who had to work in communities.

“For many ages I have been assigned to the spiritual communities that exist all over the Earth, and during the Christian Dispensation since the great manifestation of Jesus’ Victory and Ascension, I was assigned the joy of working through the Superiors of all the Orders that were developed around the Christian Doctrines, and whenever and wherever possible, would establish that focus of Love which would sustain a community against the imprint of personal imperfection and distress. That is why it was easy for Me to accept the opportunity, as well as the obligation, of becoming Chohan of the Sixth Ray.

“The length of time which lifestreams have to be ascended is not taken into account with regard to qualification for Chohanship. The momentum of a certain quality in the Causal Body, a certain affinity of energy with the previ-

ous Chohan and a certain capacity to fill a requirement is all that is required by the Cosmic Law. You might say that some of Us step down, and some step up, but for Us there is no such thing as standing back because of the prestige of years or ages of service. When the Beloved Jesus and Kuthumi were given the opportunity to rise under the tutelage of the previous World Teacher (Maitreya) and begin Their great service as World Teachers, I asked the Law if I might, through My affinity with Christianity, be privileged to be the Chohan for the time being, of this Sixth Ray, which is the Ray of Ministration, the Ray of Understanding and of Grace, and works very closely with the Chohan and Brotherhood of the Third Ray.

“This will give you some explanation of My reason for accepting this position, and of course, you are aware that the Chohans are OFFICES, and the Individuals Who become Chohans change from time to time as Others are raised up Who are ready to assume the Office.”

NOTE: Lady Nada has taken the added Cosmic Service as Hierarch of the Temple of Transfiguration within Mount Meru, Kenya.

John The Beloved now serves in the Office of Chohan of the Sixth Ray and radiates a Natural Healing activity through the Brotherhood and the Focus of The Cities of St. John, over the South Western United States.

DISCOURSE: ASCENDED MASTER JESUS

“Beloved children of God, I come to bring to you My Consciousness of Victorious Accomplishment. That which I

I have done and which I manifested through a flesh form similar to the one you presently wear, was not miraculous! It was something which is similarly ordained for every lifestream upon this planet. My endeavor to bring that manifestation of Christ-fulfillment before the eyes of men was merely to provide an example by which every man, woman and child might be stirred to make effort toward a like development.

“One of the greatest mistakes which has ‘bogged down’ the activity of the Christian Dispensation is the placing of Godhood upon Myself ALONE, and denying it to My fellowman. As we come into a more enlightened age and some of the superstitions and dogmas of the orthodox thinking have been swept away by the braver men and women who opened the door to the Spiritual Path, there has come a spiritual realization that CHRISTHOOD is possible for others besides My humble Self. Before I was born into My final embodiment, there were many lifestreams who had achieved the state of Christhood, full Mastery and God-control having sublimated the flesh form - KNOWING THE VICTORY OF THE ASCENSION. However, for the Christian Dispensation, it was My great opportunity to manifest the Resurrection, which is done so easily every Spring by the Nature Kingdom. I was to come and bring the Divine Presence into the very substance of Earth, developing it into a God-man made in the Image and Likeness of the Father Who, in the first place, Created Me, and Who also created you in like manner.

“For every Divine Creation, whether it be Angel, Deva, Seraphim, or human being, there is a Divine Pattern of Perfection for that creation. In the case of the human being, it is called the ‘INDIVIDUALIZED “I AM” Presence’! This Divine Pattern of Perfection is fashioned out of living Light, and within Its heart is placed the Immortal Three-fold Flame of Life. Within that Flame is intelligence and consciousness.

“In lesser degrees of expression such as flowers, there is also a Divine Pattern created, which is formed by the Devas who are designing (let us say) the daffodils. The Divine Pattern is fashioned at Inner Levels out of primal Light by the thoughts and feelings of the Devas, energized by the pressure of Elemental Life, and then is focused within the bulb. The Elemental who is in charge of breathing his life essence upon the bulb, causes the Divine Pattern of Perfection (already within the bulb) to expand until the perfect replica and manifestation of the daffodil appears; and that Divine Pattern of the daffodil is expressed in outer manifestation.

“Those who give great honor to My particular Mission might consider this with a little more Wisdom and Understanding, and they would find that every daffodil which bursts into bloom, every flowering shrub, every tree that follows its natural pattern does through the Nature Kingdom THAT WHICH I DID THROUGH A FLESH BODY, and you, too, must do this some day.

“Within your own individualized “I AM” Presence, you have your Divine Pattern and Plan. You have been created and directed from the Heart of the Universal First Cause by some great God-parents. Some of you come from Alpha and Omega’s Cosmic Heart; some from Isis and Osiris; some from Apollo and Diana; some from Krishna and Sophia; and some from Helios and Vesta.”

Note: The above Sun and Goddesses are Those in charge of the Systems closer to the Great Central Sun. Helios and Vesta are the God-parents of our own System; and Alpha and Omega represent the Great Central Sun Itself.

“Your Individualized “I AM” Presence was created in the Image of the God-parents Who directed a Three-fold Flame from Their Hearts into Universal Light Substance, and around that Flame coalesced your glorious Electronic Body of Light. Later there was projected into this physical appearance world a portion of that magnificent Flame which contains within Itself (even as the bulb contains within itself the perfect design of the daffodil) the picture and seed of your Divinity and of your God-Self. Are you less than a flowering bulb or a seed that produces after its kind? Are you less than a blade of grass; less than even the embryo chicken which bursts from the egg - following the pattern of its parents? Ah, no! YOU ARE FAR GREATER! You have one thing which is not the gift of the Nature Kingdom - FREE WILL! Through the use of that gift of free will, you have chosen to NOT let the God Who created you (and Who is living within your heart) to expand into Its full perfection. From time to time, Beings have been chosen at Inner Levels to come to Earth through physical embodiment to show people the way to attain mastery and develop the full bloom of the Christ.

“The SECOND COMING OF THE CHRIST means the awakening of many men and many women who will externalize the glory of their Divine Pattern and Plan through their outer selves. This was My Message - it was My Mission! It was the reason for My coming into being; the reason for every experience of the Earth life even to allowing men to mutilate My flesh form. I allowed this to prove that the Immortality and Divinity of the Godhead could be manifest through one of the sons of men!”

#### THE LUMINOUS PRESENCE OF JESUS

The phrase ‘IN THE NAME OF THE ASCENDED JESUS

CHRIST’, when spoken, contains a vibratory action that repels individuals and vibrations that are not of the Light. When anything seeks to disturb , and you call first to your own God Presence - “I AM”; and in the Name of the Ascended Jesus Christ, COMMAND the disturbance to leave, IT WILL BE DONE! That which is not of the Light will vanish at the mention of His Sacred Name. The Master Himself has said to “ask that you will in My Name” and it will be done!

Healing, Protection, and Perfection will manifest when the LUMINOUS PRESENCE OF JESUS or any Ascended Master is called forth and then VISUALIZED. If you will SEE IN YOUR MIND (which is visualizing) the Ascended Jesus Christ in blazing White Light stand at the back of you and enfold you in that blazing Light, and feel its blazing white essence penetrate every part of your body, your mind, and your feelings, practice of this will prove the power that is within it. You can also enfold every individual you wish to assist in this Luminous Presence of Jesus the Christ and see the Healing and Perfection take place as the Light replaces all the shadows.

Here appropriate music may be played while the attention is focused upon the LUMINOUS PRESENCE of JESUS enfolding everyone in the room.

#### PART II

#### BELOVED URIEL : ARCHANGEL OF MINISTRATION

The Archangel Uriel serves on the Sixth Ray. His service is to minister to all the evolutions belonging to the Earth (some ten billion souls - although only about three and a half billion are embodied at one time). He wears the beautiful Ruby Robes of the Sixth Ray and is surrounded by

myriad bands of Angels. His Divine Complement is the Archaii known as Donna Grace. Great Legions of His Court are always present in and around institutions of incarceration, hospitals, prisons, homes for the aged, and some of His Angels are always present where there is a soul in distress.

The very nature of Uriel's service - Ministration - brings Peace, which precedes all permanent healing of soul, mind, body and affairs. Peace is a conductor of Healing Rays, for when an individual is in a state of turmoil, his aura repels the healing he desires, but when he is at Peace, his aura accepts the Healing Ray.

#### DISCOURSE : BELOVED ARCHANGEL URIEL

"I AM THE SPIRIT OF MINISTRATION! I AM THE SPIRIT OF PEACE! I AM THE SPIRIT OF GRACE! I am the Servant of the One God, and I stand before you, each one, as your Servant too! Wherever the Name of God is invoked, either silently or audibly, THERE I AM ON THE INSTANT with the fullness of the Love, the Blessings, and the Benediction, Healing, Faith and Power of the Almighty. According to the capacity to receive, is the blessing given.

"I say to your consciousness, your minds, and your bodies: 'In the Name of the One Mighty God, PEACE BE UNTO YOU! PEACE BE UNTO YOUR STRIVING CONSCIOUSNESS, YOUR RESTLESS MINDS, YOUR WEARY BODIES - THE PEACE OF GOD THAT DOES SURPASS THE UNDERSTANDING OF THE OUTER MIND'! Let It enter NOW into every cell and fiber of your being and relax in the knowledge that you are IMMERSSED in the Presence of the Almighty. You live, move, and truly have your being within the living, breathing Intelligent Body of the Universal God, and no matter how far

you may stray in thought, you can never leave the safety of His Bosom. It but requires of you the awakening to your Presence within that safe, secure and loving Heart!

"Of all the Angels that people the inner atmosphere around the Earth, the greatest Legions are of Lord Michael and of Myself. We are the Servants of God, and it is Our great opportunity and joy in the Universal Scheme, to minister unto the sons and daughters of God who have woven out of thought and feeling certain painful experiences, and who, in their extremity, invoke the Superior Power for assistance to extricate themselves.

"We are those Legions Who answer the calls and prayers from the least of men. In graded order, the Angels of Ministration stretch from the Heart of the Central Sun Itself - down through the astral and psychic realms. Through the Silent Watchers, We are alerted the moment the Flame in the heart stirs and the silent 'God help us' arises from within the consciousness. At that time, according to the requirement, is one or more of Our Legions sent to bring Grace and assistance to the lifestream requiring succor.

"The Angels of Ministration are the Messengers of the Most High. They are Those Who embody the mystic Quality of GRACE. The Complement of My Lifestream is known at Inner Levels as DONNA GRACE. She is the 'Lady full of Grace' in the Angelic Kingdom as the Beloved Mary is representative of Grace to the human kingdom at the present time. There is a Cosmic Law which is inexorable and unchanging which requires that THE CALL MUST COME FROM THE OCTAVE IN WHICH THE NEED IS FELT. If this were not a self-evident Truth, long ago those of Us Who live in Love and Mercy would have lifted mankind into the Light.

"The great Silent Watchers that take up Their abode

over large cities are constantly watching for those beams and flickers of Light which pass out of the soul and signify an S.O.S. to the Heavenly Hosts for assistance. These Beings make the call to one of the Directors of the Angelic Host in Our Sphere; that Director gives the mission to an Angel Who is developed enough to hold within the feeling world the quality of radiation which is the answer to the prayer. That quality stimulates the Flame in the heart and soul of the supplicant and as the two meet, the supplicant himself magnetizes the answer - which comes according to his acceptance.

"The Beloved Angelic Host Who work with Us start with the tiny little Angels Who embody the Qualities of Faith, Happiness, Hope, and all the Virtues, and Who are able to retain, for no longer than an hour at first, the specific radiation of a Quality which may be required on Earth. Their first endeavors to give assistance are brief ones, and they hasten back into the safety of the Director from Whose arms and aura they have been sent forth to empty their little vial of Faith, or Confidence, or whatever it may be, into the Silver Cord and lifestream of some despondent or despairing one. Recording the victory of such a mission, the small Angel becomes more confident and eager to learn, and more desirous of maintaining the necessary self-control to sustain more of the Virtue on the next mission. It is thus, by actual experience, that the Angelic Host grow and develop and learn the joy that is within service.

"You are in training to become Masters! Freedom comes when you are consciously a master of circumstances and can regulate any set of circumstances by the Flame within your heart. There is no other permanent Freedom! In the schoolroom of life, it would be easier to have an individual who has passed successfully through your course to work out your problems for you, but the wise man learns the

principle himself lest the man on whom he relies to solve his problems should not be there when his great opportunity comes.

"Let Me see what you will do with you aura in the days just ahead. Make it something that We can use, and REMEMBER, REMEMBER, REMEMBER - Uriel is no farther from you than a call! Just the THOUGHT OF GOD will bring Me on the instant. I am your Friend! I am your Servant! I am your Companion in the Light - URIEL, the Messenger of the Most High!"

Play appropriate music while attention is focused upon Beloved Uriel and His activities.

#### TRANQUILITY : THE GREAT ELOHIM OF PEACE

The Elohim of Peace, Beloved Tranquility, together with His Divine Complement, Pacifica, helped to build the planet Earth. They serve on the Sixth Ray and having developed and sustained the Quality of Peace for aeons of time, are desirous of assisting each individual and the planet itself to have Peace when all mankind truly desire it from within their hearts. These great Beings will answer every call and enfold each one in the actual substance, radiation, and power of Their God-Gift of Peace to bless the family, the community, the nations and the world. Peace is an essential quality that each one must some day draw into their own worlds and hold it so that nothing within or without can ever disturb it. That is MASTERY!

#### THE SEVEN STEPS TO PRECIPITATION by Beloved Elohim Tranquility

Step 1: "Nothing is ever created in this world along any

line until you WILL within yourself to do it. This is the activity of Beloved Hercules and the First Ray. Whether you WILL to walk down the street, attend a Class, to give some service to another, to precipitate a small ring or a large building, you must first, within yourself, WILL to take the vital energies of your life and accomplish some constructive purpose with them.

Step 2: "This comes under the radiation of Beloved Cassiopeia. After you have willed to create a definite form, you should ask for the DIVINE PERCEPTION (ILLUMINATION) as to the best way of producing that form, or after you have abstractly willed to serve in some way, the PERCEPTION of the Golden or Yellow Ray is necessary to enable you, through the use of discrimination and just plain common sense, to know just what momentums of already developed God Qualities you have to offer, and how they will best allow you to serve.

Step 3: "Now comes the step which involves releasing the feeling of DIVINE LOVE from your heart, and this step is under the direction of Beloved Orion. That which you do in service for the Master, or in the use of the Power of Precipitation, requires the loving co-operation of all your vehicles, including the physical form. You have heard it said that what is done in a sense of 'duty' must be done over again in a FEELING OF LOVE. You must develop the loving constancy of staying with your endeavor until it is completed - working with it in gratitude, happiness and devotion - with no thought of time, recompense, or personal recognition of any kind - just serving for the joy of it. That is the activity of the Third Ray, and one of the most important of the Seven Steps.

Step 4: "The activities of Beloved Claire (Elohim of Purity) takes fourth place in precipitating. This means staying

right with the PURITY of the original design which has been given into your mind by your own Holy Christ Self. To hold the PURITY of your design means that you do not personally elaborate upon it, but are willing to sustain the perfect pattern and design which an Intelligence greater than your own has created so that, through you, the entire race may be benefitted.

Step 5: "The next activity is that of CONCENTRATION and CONSECRATION from the Beloved Vista - the quality and ability to stay with one project until it is completed. Here again we come to that which is a great test to the lifestream. The vital fires of joyous enthusiasm and zeal which are kindled within the earnest student when he first touches the Truth of this Light usually turn to ash within about six months. However, CONCENTRATION upon the same plan, pattern, or design until it is physically manifest, is essential to the producing of INSTANTANEOUS PRECIPITATION.

"If you are designing a car, a home, a garment, or whatever you may choose to precipitate, STAY WITH ONE DESIGN until you have followed through the necessary Seven Steps to Precipitation which are scientifically required to manifest what you desire visible and tangible into your outer use. It is not so important WHAT you choose to precipitate, but it is important that you clearly understand these steps. When you do, and are able to use that Science consciously and at will, the things of this world will seem as rubbish to you. We want you to feel the joy which is within you to produce a manifestation, and when you have done it once, the use of that power is yours for Eternity.

Step 6: "In the Science of conscious Precipitation, the Seventh Ray of RHYTHM precedes the sealing of your manifestation in the substance and radiation of GOD PEACE which is normally the activity of the Sixth Ray. After you have

finished with the Fifth Ray of CONCENTRATION, and have stayed with one pattern long enough, you come into the activity of Arcturus - RHYTHM OF INVOCATION. Here, if you are serving the Master, it is of little effect if you serve Him in a great rush of energy one day and then do not show up again for a month! All the activities of Nature are in perfect RHYTHM. Watch your Seasons, the sunrises and the sunsets, the ebb and flow of the tides, and the regular beat of your own heart. You can see the necessity for RHYTHM. No matter what you are creating, the RHYTHM OF FEEDING THAT PATTERN with your life by your thought, feeling, and spoken decrees at the same time each day - morning, noon and night - or whatever time you decide to do it - is absolutely essential to your success in such an endeavor.

"If you do not give your pattern of Precipitation RHYTHM, you will bring forth a form without symmetry if you bring forth anything at all. Some of the imperfections of your flesh forms are due to the unpleasant effects of broken rhythm. Conscious students shy away from broken rhythm in music, and yet in their own worlds that broken RHYTHM of thought, feeling, spoken word and deed results so often in ill health, lack of finances, lack of peace, and many other limitations. You could not long remain either angry or resentful if you were to govern the RHYTHM of the life flowing through your bodies by maintaining the rhythmic breath at all times.

"The smaller the thing you choose to bring forth as your first precipitation, the less of your vital energies it will take. Begin with something that your reason will not confute in the wee hours of the morning when you are alone and your thoughts are out of the radiation of others.

Step 7: "Then, O beloved ones, My Heart pleads with you to prayerfully consider this final step - probably because it is My own Activity. After you have drawn forth your mag-

nificent precipitation SEAL IT IN MY FLAME OF PEACE! Do not allow any inharmony from yourself or others to destroy it. Just as you would place a cellophane cover over something precious which you wished to preserve, seal your precipitated form in the Golden Flame of the Elohim of Peace to hold it inviolate against the disintegrating forces of human thought and feeling. Perhaps the greatest disintegrating forces of such human thought and feeling is the jealousy and doubt of others.

"It is most important for you to remain absolutely SILENT concerning what you are doing! Seal your lips against giving any intimation through the spoken word as to what you are doing, for you have no idea of the violence of feeling which will be driven at you from those who are covetous of your Light's greater development.

"When the original creation of this planet was finally manifest, and the activities of the RHYTHM of Arcturus had drawn the final invocation of energy necessary for its completion; when the Sevenfold Flame of the Elohim had done its perfect work; when the planet Earth began to revolve upon its axis and to release its melodious Keynote, it was a beautiful sight! At that time, the PEACE which surpasses the understanding of the human mind abode in the atmosphere of the Earth. It was only when the 'laggard' souls came from other Systems and brought disintegration through the feelings of rebellion, pride, hate, doubt and fear, that like the Trojan horse, from within out, the great perfection which had been established began to recede."

## THE EVOLUTION OF AN ELOHIM

by the Beloved Elohim of PEACE - Tranquility

“The evolution of the Elohim is through the Elemental Kingdom (El-e-mental meaning ‘Mind of God’. Each of Us started out as small elemental beings belonging to different Systems, different Galaxies, at different times. I was one among those Elementals Who followed the exact order of creation. You have seen Universal Elemental Light filling the atmosphere - those tiny electrons that seem to be going nowhere - just flitting hither and yon in the sunshine. When one is first God-created, there is complete freedom to just enjoy one’s self, and that is where some folks get the idea of Heaven as being a Place of Eternal enjoyment, rest, and a general do-as-you-please attitude. They remember BACKWARD - for this is not looking FORWARD - and I warn you ahead of time - the FUTURE is not going to be like that! Those were your ‘pre-Eden days’!

“Long, long ago, I was one of these tiny Elementals flitting hither and yon in My Universe. Whenever I felt like it, I attached Myself to some Light Ray projected by some Being of Whom I was scarcely cognizant. At times I rode upon a great beam of that Light which was destined to become part of some Star or some lovely God-creation. I had no responsibilities, and no obligations.

“This same freedom is given to all of God’s creations - your “I AM” Presence, when first created, was permitted to go through each of the Seven Spheres of activity around Its Godhead; find that Sphere in which It was most interested; stay in any Temple as long as It desired; and at the feet of any Master for any length of time It desired. The Angels have like freedom. When first created, They disport Themselves in the glory and Light of the Body of God, and eventually become a part of the Virtues of Faith, Hope, Charity, or any

God Virtue They please. These Angels live in the Temples of Their choice - They absorb - and JUST ARE!

“Then suddenly one day, there came a feeling within Me that I wanted to be a CONSCIOUS part of Creation. When this takes place within anyone, it means that the activity of the FIRST RAY is born within them - the WILL TO DO - and so it was with ME.

“Then I sought out someone whom I knew could tell Me just what to do, and when I had found such a one, I was told that if I cared to go to a certain Nature Temple, I could learn how to build form - perhaps a flower. To do this, together with others of like intent, I had to learn to hold the thought-form shown to Us on the Altar by the presiding Deva, Our Instructor.

“After enrolling Myself as a student in this Nature Temple, My first assignment was to build a five-petalled yellow flower - AND I SHALL NEVER FORGET IT! Oh, there must have been a couple of hundred of Us in the Class- all quite as irresponsible as Myself. We could hear beautiful music outside the Temple; the air was so lovely and fresh, Beautiful Beings of Light were passing through the atmosphere outside the windows, and the holding of the pattern of that flower got so MONOTONOUS I can tell you. The Deva just stood there on the Altar and from Himself He externalized the pattern of this flower which We were to learn to create. He tried to catch Our thoughts and focus them upon that flower, but I soon found out that just the WILL TO DO was not enough - there must follow the other six steps of Creation to perfect the activity!

“Then suddenly PERCEPTION came into My mind, and I thought: ‘Yes, THIS is a part of creation’, and I PERCEIVED at least what the Deva wanted Me to try and do. Up until that time I just enjoyed the fragrance, the color, and the symme-

try of form of that flower. I did not feel that I wanted to do anything more than that about it. As that feeling of PERCEPTION took possession within Me, I consciously tried. Oh, but that first form which I attempted to create was certainly a distorted one - it was sort of square. It did not have enough petals, nor did it have the right fragrance. Besides, just as soon as I took My attention away from it, the form was gone. Others in the Class were still not very concentrated in their attention and were still flitting around. However, those of Us Who really meant business finally moved up to the front of the room - nearer the Altar.

"We continued to absorb the instruction and tried again and again, and finally one day a little yellow flower appeared in My hands and I was happy! This time I had the right number of petals, the right color, and the right fragrance for My flower, but My goodness, just as I was about to present it to the Deva, one of the Archangels went by the window and My attention being drawn by His magnificent Light, it left the flower for an instant. When I looked back at My hand, the flower was gone - a lack of CONCENTRATION you see!

"Those Devas do not speak at all. They give all Their instruction through radiation, and Our Deva Teacher suggested to Us that if We wanted to create those flowers consciously, We could add beauty and perfection to a Springtime on some lovely planet which the Elohim in charge of that planet were to beautify for the blessing of an evolution of living souls. As I thought of this, LOVE for my endeavor was born within Me. I felt that I wanted to make that little flower perfect enough, fragrant enough, beautiful enough, and make it last long enough to really bless some part of life. That was the third aspect of Divinity - LOVE! Then I forgot Myself and the distraction of Those who were going by outside, for I really wanted to create that flower - and so I stayed with it!

"What happened then? I received an assignment! The Devas do not assign one to the task of even becoming an apple-blossom until They know that you will stay with that task long enough to complete it. In My new assignment, I was directed, along with, I think, about seven hundred others, to adorn one big tree. Incidentally, the yellow flower I was to create does not grow upon your Earth, nor does such a tree. Perhaps one day they shall!

"Here came another lesson which I did not learn at once. Our Teacher reminded Us that when We went to that planet with the Great Deva of the tree to be formed, We would see all different kinds of trees. He warned Us to watch and see that Our individual flower to be created did not become just like that which We saw on some other shrub or tree. I forgot His admonition and Mine did just that! I saw pink flowers and white ones, and by the time I was through looking at them all, I had nothing definite in My own mind - and therefore no manifestation!

"Then I learned the fourth lesson - the PURITY of holding to the Divine Pattern which had been given to Me in the beginning. When We finally went back to Our Nature Temple 'schoolroom', none of Us who had 'lost out' were at all proud of Our accomplishments. Those in charge always prepare more Elementals than They know will be needed for a certain creation, and therefore the creation was completed by Those who could do the work. I did not volunteer so quickly for the next experiment I can tell you! However, within Myself I determined that I would hold the pattern of that yellow flower until I brought it forth in Perfection.

"Finally, I did not even have to volunteer. My Deva Teacher, in Mercy, said to Me one day: 'All right, you may go and try again'. This time I closed My eyes, My mind, and My attention to everything but to the becoming of that

yellow flower. Yet there remained even more for Me to remember - CONSTANCY - for I allowed My petals to fall before the Springtime was over. I had to learn the fifth activity of CONSTANCY and CONCENTRATION until the Deva called Me home. Because of My lack of CONSTANCY after the premature falling of My petals, I was home a whole month before the others. I must tell you that I did not go into the Temple for quite a while. I walked up and down outside, but did not go inside! At last, I HAD TO GO IN - you know that! Wherever you are, and whatever you volunteer to do, YOU MUST FINISH IT ONE DAY! It is the same thing with humanity; they may 'play around' as long as they wish and waste their time and energy, but one day they must finish their course (fulfill their Divine Plan). Sooner or later, perhaps with your feathers trailing, you will go back to the fulfilling of your original Divine Plan.

"When We gathered again before the Deva in the Nature Temple, I was seated far back in the last row. I was small of stature and I thought that I would not be too easily seen there. Thinking to Myself, I said: 'I shall never go out again. I'll just stay right here!' However, next We were taught the lesson of RHYTHM.

"Here I learned that I had to hold the PURITY of form, and that I had to stay at My Post until I was released by the Being Who had sent Me forth - that was CONSTANCY. Then, amazingly, I learned that I had to go EVERY Spring! My goodness, I thought going once was a major achievement, but I learned the lesson of RHYTHM: yellow flower - yellow flower - yellow flower - over and over again, each and every Spring. I shall not attempt to tell you how many Springtimes I became a yellow flower. Doing it once was a novelty; even a dozen times was fun; but EVERY Spring seemed to Me like a long, steady, relentless 'grind'. OBEDIENCE! OBEDIENCE! OBEDIENCE to the end!

"The last step I had to learn in this process of creation was to HOLD THE PEACE! The last time that Deva told Me that I was going to be a yellow flower again, I NEARLY LOST THE WHOLE COURSE! You see, in the meantime, some of My Friends had become beautiful trees, shrubs, and other lovely creations, but I WAS STILL A LITTLE YELLOW FLOWER! So you see, I had to learn to HOLD THE PEACE - PEACE which I became Myself, mind you, on a far-distant future scheme. So, if you are one of those 'little yellow flowers', learn to HOLD THE PEACE! Perhaps, one day, you will be a Sun to a System. Who knows what anyone's use of free will may do?

"At last, on this final trip, I just LET GO! I really did! I thought: 'If God wills it, I shall be this blossom for Eternity!' That was My last trip. That absolute surrender gave Me My release, and at the time, when I returned to my Deva in the Nature Temple, He crowned My service of the ages - AGES I said - with Victory. Then, I was graduated into the Devic Kingdom.

"For a long, long time, I served and worked with increasing efficiency until I finally took the initiation of the Elohim. Later, when given opportunity by the call from Beloved Helios and Vesta for Those Who would volunteer to build for Them this dear planet Earth, I voluntarily joined the other six Elohim to render that service. We served together in association both for the joy of comradeship and the joy of creation.

"Proceeding through these 'Seven Steps' of activity is the way by which the Elohim expand Their consciousness from an Elemental Being to a great Builder of Form. It is the way by which the tiny Cherubim become great Devas of Light, and passing through those 'steps' also, the spiritually unawakened soul eventually awakens and becomes the great Ascended Being of Love, Light, and Perfection. There

is no escape from following these 'Seven Steps' anywhere. Some natures are such that they accept and follow those steps quickly, and some take a longer time to accomplish. Believe Me - I KNOW! I think that I was the slowest pupil of all the grouping of Elementals with whom I started out, but one thing I learned, if nothing else, was to HOLD MY PEACE and ABIDE IN THE WISDOM OF THE LAW!

"For the kindness and courtesy of your attention, and your Love, I thank you! Will you remember always, please, that PEACE IS A POSITIVE POWER! I, Who have passed the way of evolution before you, am yours to command! I leave with you My Blessings. May all your precipitations be perfect; your 'flowers' beautiful; and all your God-endeavors successful in His Name!"

Play appropriate music while the attention is focused upon the Beloved Elohim of Peace.
